Physics that act quickly usually weaken the patient so much that he is left in a worse condition than before the drug was taken. Any physic that causes an unnatural bowel movement will so vitiate the intestinal muscles that they will not be able to properly perform their functions until another and stronger physic is taken. This is the danger which lies in the taking of laxative waters (which are made of salts), candied pellets and pills.

## Dr. Caldwell's Syrup Pepsin

cannot be classed as a "Hurry Up" physic. It acts promptly but does so in the most natural manner. It contains considerable pepsin, the greatest of all stomach stimulants. This preparation gives great strength to the stomach, and makes it possible for the muscles which line the walls of the stomach, bowels and intestines to perform their functions without further aid or attention.

It is a pleasant remedy to take and is the most beneficial stomach preparation ever compounded.

All druggists sell Dr. Caldwell's Syrup Pepsin at 50c and \$1.00 a bottle.

Money back if it doesn't satisfy.

## MUNICIPAL FERRY LINE IS STARTED BY NEW YORK.

Five boats, valued at \$2,000,000, owned by the City, put in operation between Battery and Staten Island.

New York, Oct. 25.—One of New York City's most conspicuous adventures in municipal ownership was inaugurated today, when the new ferry line between the Battery and Staten Island was put into operation.

It is owned and operated by the city, and the five splendid ferries are the largest in New York harbor, aggregating in value nearly \$2,000,000.

They replace an antiquated private ferry line against which there was great protest.

The new service was started with ceremony, Mayor McMillan and 4,000 guests making the first trip.

## Whiskey Seizures.

United States Revenue Officers have recently seized numerous quantities of certain distillers bottled-in-bond whiskeys in many of the wholesale and retail liquor houses in St. Louis.

The revenue officers inspected the stock of Wm. H. Lee & Company, and found all the whiskeys in the house and in the stock of their customers straight and conforming to all revenue requirements.

At this time it is personally gratifying to prove that Wm. H. Lee & Company's stock is exceptionally straight and sound, just as it always has been, and that the high standard of this good old reputable firm is maintained as fully now as at all times in its history, covering a period of over 50 years.

As president of Wm. H. Lee & Company, I have had some peculiar experiences in keeping the business free from crooked tank whiskeys, poisonous bottled-in-bond whiskeys, such as have been seized here and in the State of Minnesota, and free from low-grade stuff represented to be "old hand-made sour mash Bourbon."

Four months ago I arranged to transfer to strong and desirable interests a large share of the capital stock of Wm. H. Lee & Company, and before closing the deal our books were thoroughly examined by a well known expert accountant of New York City. He was selected by the purchasers, and his report declared the business of Wm. H. Lee & Company sound, free from criticisms, features, and to be just as we represented it. Moreover, he complimented me personally upon the organization and management of the business, and especially concerning the moral, legal and business obligations, which had been most carefully considered. He assured me that he would be pleased to be favored by an opportunity to invest in any business I would organize or conduct in the future.

This statement is made to point out some facts, and set right misrepresentations circulated by outside parties in the interest of unfair competition.

## HUSBAND SEEKS MISSING WIFE

Would Also Like to Learn Where Disappearance Was Simultaneous With That of Woman.

John Winkelmeyer, known as the "Black Bear" of Granite City, has detectives on the track of the man who, he says, stole the same car and saw the disappearance of his wife.

Mrs. Winkelmeyer and John Regan, a foreman in the Commonwealth Steel Company's plant in Granite City, disappeared simultaneously last Saturday, leaving behind them the woman's husband and his children, three of whom were born of his first spouse.

Shortly after their disappearance Winkelmeyer notified the authorities in Granite City, Madison, Venice, East St. Louis and St. Louis, and has hired private detectives to assist in the search.

Mrs. Winkelmeyer is described as pretty and about 40 years old. Regan is about the same age and is said to be a man of good features and exceptional physique.

Regan used to board with the Winkelmeyers, who live on a farm near Granite City. He was a steady worker and showed affection for his in-laws. Winkelmeyer did not suspect that his wife and son were in any danger.

Winkelmeyer's first wife, he says, left him eight years ago, when he lived in St. Louis. She was a widow and was married again.

With his three children Winkelmeyer went to Granite City, where he has a home. About six years ago he met his present wife, and they were married after a brief courtship.

## YOUTH FOUND DEAD: HEAD NEARLY BLOWN OFF.

Believed Herbert Wilderman of Freeburg Accidentally Shot Himself—Inquest To-Day.

Apparently the victim of his own weapon, Herbert Wilderman, 17 years old, was found dead half a mile from his home, near Freeburg, Ill., at dusk last night.

The youth's head had been blown almost from his body, and from the position in which he lay it was evident that he had been struck by a bullet.

It is supposed that Wilderman was dragging the man after him, and that a twig, striking the trigger, discharged the loaded gun.

Coroner Irwin of Belleville will hold an inquest on the body of the youth, who was the son of Mr. and Mrs. J. S. Wilderman, who live on a farm near the scene of the supposed accident.
